Joplin Junior College, Joplin, Missouri, March 22, 1963

No. 9

## House Approves College Proposal; Committee Consults Dalton and Ellis

A bill concerning the establishment of a four-year branch of the University of Missouri in Joplin passed in the House of Representatives March 13 in Jefferson City.

The bill carried on a vote of 120 to 20 with two present and not voting. As The Chart went to press, the measure proceeded to the Senate.

The measure provides for the establishment of four-year University branches in Joplin and St. Joseph. If the measure becomes a law, however, the branches will not materialize until the state appropriates the necessary funds and the two communities supply physical facilities and equipment. The University of Missouri will provide the faculty for the third and fourth years.

A Jasper County delegation met with Governor John M. Dalton and Dr. Elmer Ellis, president of the University of Missouri,

March 7, to discuss a proposal to establish a four-year college in the Joplin area.

Dr. Ellis consented to send a representative to study existing operations and facilities of Joplin Junior College as a possible base for a four-year university branch, proposed in measures before both houses of the Missouri legislature.

According to one news story, Governor Dalton said that "the need is more apparent in Joplin than in St. Joseph, since the latter community is nearer to other higher education facilities than is Joplin."

Both communities have bills before the legislature seeking four-year university branches.

The delegation included Fred Hughes, chairman of the Committee to Establish a Four-year College in Southwest Missouri, and three Carthage businessmen—Mills Anderson, Harry Spradling, and Bennett Wilson.

## Chorus to Present 'Messiah' Palm Sunday

A combined College and community choir will present Handel's "Messiah" at 3 o'clock on April 7 in the First Methodist Church.

The 110-voice choir consisting of approximately 60 College persons and 50 from the local area will be under the direction of Oliver Sovereign.

Soloists include: Marcia Do-brauc, soprano; Larry Dunham, bass; Ruth Schnackenberg, soprano; and Max Wilson, tenor. A Kansas State College student will sing the contralto part.

## Dean Leon Billingsly Addresses NCA Panel At Chicago Conference

Dean Leon C. Billingsly took part in a program at the annual meeting of the North Central Association of Colleges and Secondary Schools March 18-21 in Chicago. Serving on a panel concerned with Community and Junior College Education, he discussed "Relationships with High Schools."

## Engineers' Ball Climaxes Annual St. Pat's Day

The Engineers' Club held its sixth annual St. Pat's Ball March 15 on the Connor Roof Garden. Cindy Porter was crowned queen by Frank Woodbury, president of the club, and presented an emerald pendant by Ken Christiansen, chairman of the St.

Pat's Day committee. Suzanne Jameson, a 1962 St. Pat's princess gave her an arm bouquet of white roses.

Cheryl Martin, another 1962 princess, served as mistress of ceremonies and introduced the candidates. The girls were Karalee Pearson, escorted by Tom Holt;

Cindy Porter, escorted by Christiansen; Jane Rucker, escorted by Sid Engle; Barbara Stone, escorted by Richard Moss; and Linda Webb, escorted by Burl Shadden.

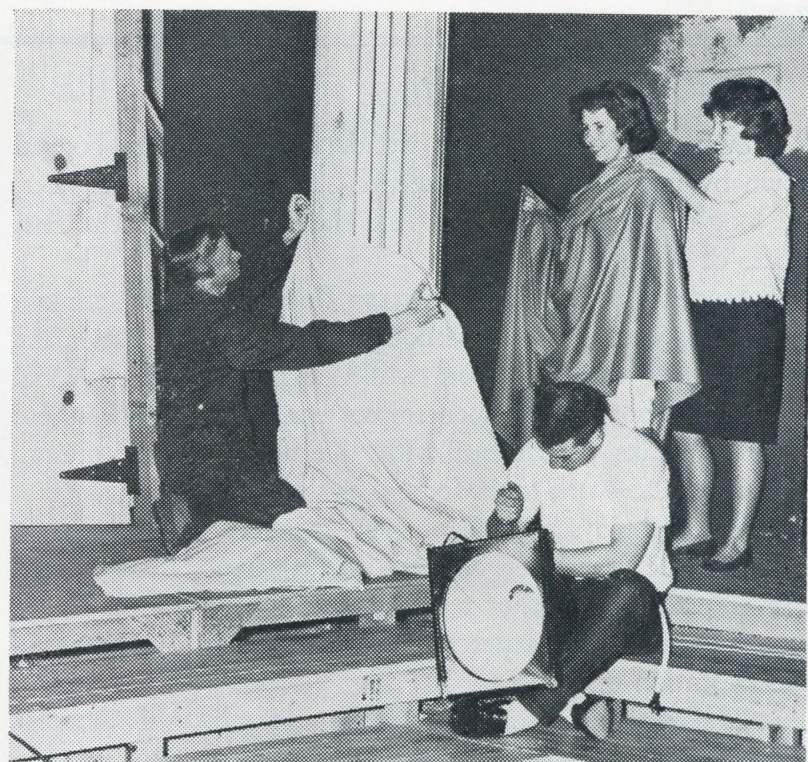

The Road Runners from Parsons, Kansas, provided the music. Decorations carried out the Irish motif.

## Crew Completes 'Medea' Set For Opening of Four-Night Run

Crew members have about completed final adjustments on the complex "Medea" set and Grecian costumes in preparation for the opening Wednesday night. Beginning at 8 o'clock, the play will run through March 30.

Sharon Long and Mike McGee will carry the leading parts in the drama which director Milton Brietzke describes as "J.J.C.'s first attempt at Greek tragedy." A sixth century B.C. creation of Euripides, "Medea" is the adapta-

tion by Robinson Jeffers. He retains the original story but eliminates unnecessary formalities and lengthy invocations to the gods.

The plot fundamentally concerns the bitter revenge of Medea against her former husband, Jason. By using her powers as a sorceress, she enables Jason to accomplish a mission and she returns to Greece as his wife. But after several years he abandons her to further his own ambitions by marrying a fair young woman of high rank. Thus, the unfaithful lover evokes the wrath of his banished wife. Medea characterizes the championing of women's rights in a man's world.

Activity tickets will admit students and other tickets are available in advance from any College Player.

## Colombian To Give Lectures Here April 1-2

A South American educator, lawyer, and diplomat, will give four addresses April 1-2 open to the public. Jose Chaves, a Danforth lecturer, will speak on "Culture and Civilization in Latin America" and three related topics.

The native of Bogota holds a degree of Doctor of Jurisprudence from the University of Bogota and M.A. and Ph.D. degrees from Columbia University in New York. Dr. Chaves has served his country as a diplomat in Washington and as a representative to the United Nations.

As an educator, he helped to establish the first public high school in Bogota in 1941 and the first private university of Colombia, the University of the Andes, in 1948. He has written books on such subjects as international law, constitutional government, university reform in Latin America, and Cervantes.

Dr. Chaves holds a citation from the French Legion of Honor.

## New Students to Take Two Placement Tests; May Take Math Test

Any freshman entering one of the 17 schools participating in the Missouri Colleges' Cooperative Testing Program is required to take two standardized placement tests. In addition to the School and College Ability Test (SCAT) and the University of Missouri English Placement Test, students entering J.J.C. will receive the Otis Quick-Score I.Q. test.

The testing program will be carried on at 34 locations across the state so that the tests may be taken at the most convenient time and location. Those taking the tests must appear at the center at 8:45 in the morning.

Tests at Joplin Junior College will be administered on Saturday, April 20, and Saturday, April 27, in Room 308. Additional information is available from Dr. Lloyd Dryer.

The Missouri section of the American Mathematics Association will conduct advanced placement tests for credit in algebra and trigonometry at 9 o'clock Saturday morning, May 4, in Room 207.

The College Mathematics Department is mailing pertinent information to high schools in Jasper, McDonald, and Newton Counties. Paul Jensen and Miss Martha McCormick will administer the examinations.

Students who pass the tests and later enroll in a Missouri junior college will receive credit.

## Summertime Blues

Summer vacation seems wonderful to students bogged down by mid-semester assignments. Yet, in many instances, the long awaited summer will find them bored after the first weeks of June.

Students have great difficulty finding summer employment. But with a little forethought, young people can make their summer vacations worthwhile. Private camps, national parks, and resorts offer much employment to collegians whose summer breaks correspond with the heavy tourist season. There are also work tours for travel abroad.

Such employment offers some monetary compensation, although the cash often amounts to little more than enough to meet expenses. Other rewards, usually just as valuable as money, include the experience of working with others and the education of travel.

Those desiring to do something different this summer should begin immediately to investigate parks, camps, resorts, or tours which appeal to them. To plan an entertaining and worthwhile summer, one should start writing letters now.

— H.E.C.

## Join the Physically Fit!

In accordance with President Kennedy's recent physical fitness program, we propose the return of the Bicycle. Many footsore Americans now realize the futility of the 50-mile hike. The Bicycle is a saner approach to physical fitness. Its return will not only aid the sagging physical endurance of the average American, but also be extremely practical.

Here at Juco, where a majority of the student body ride to school in automobiles, there is a tremendous parking problem. For a working college student, the time factor is of great importance. Face it. The Bicycle is faster than walking. In most cases the speed with which a Bicycle may be parked gives it a time advantage over the present king of the road, the automobile.

While being assured of the privileges of the road, the Bicycle rider is immune to its dimmer aspects: the parking ticket, the speeding ticket, and a multitude of other wallet drainers. Its maintenance requirements are practically nonexistent. The economic aspects of the Bicycle cannot be overstressed. As a social instrument, the Bicycle holds its own.

If you are a non-believer, try a Bicycle picnic on the next warm week-end. Save your car for a trip to the drive-in, a trip across country, or for a ride on a rainy day. We challenge you of Joplin Junior College to be a physically fit, economically conscious, and individualistically orientated student body.

— J.L.

## Mrs. Jones Tells of Ireland

At an assembly the day after St. Patrick's Day Mrs. Evelyn Milligan Jones vividly recounted her Irish tour. Attired in green, she shared with vitality and humor not only experiences but impressions and viewpoints.

She began by assuring all that "Ireland is just as green as you've been told." "The very savor of Ireland," she said, "is in its scenery and its people."

She found a spring-like climate. Frequent rain was so soft that "it seemed as if you could walk in it without getting wet." An old saying states, if one can not see the Aran Islands, it is raining; if one can see them, it is about to rain.

The traveler enabled her audience to feel the charm of the people. Their musical speech, their superstitions, and their history so tightly interlaced into daily life captured the visitor.

"No people since the ancient Hebrews," she exclaimed, "have had such an ear for sound." Servants and itinerant minstrels surround the traveler with old ballads having "an accent of lament."

Irish speech also carries a musical flavor, she said. Haunting phrases like "May the luck of the day be on ye" and "God speed yourself" are typical.

Christian since St. Pat, the Irish "still have a bit of pagan" in their tales, Mrs. Jones noted. "Little men," angels fallen onto earth, are all about. St. Pat reigns as national patron and legend.

Viking relics and crumbled castles seem to have come "only yesterday" and history and legend moved about her.

She emphasized the Irish hospitality. She believes they are "more with America than any other country in Europe."

## Listen!

"Concert in FM," at 1 o'clock Sunday afternoon, features "Symphony No. 2 in E Minor," Op. 27, by Sergei Rachmaninoff. Paul Parray conducts the Detroit Symphony in this performance of the piece which won the Glinka Prize in December 1908.

Beethoven's "Second Piano Concerto" will be broadcast on the same program. Rubinstein will be the featured soloist as Krips conducts the Symphony of the Air.

Richard Wirthman's program for March 31 will feature William Walton's "Symphony No. 1," composed in 1935. Sir Adrian Bolt conducts the Philharmonic Promenade Orchestra in this reading.

Robert Schumann's "Symphony in B Flat" (Spring) will be sounded March 31 to announce the opening of the season. Olin Downes describes the symphonies of Schumann as "the outpourings of a young poet's heart, who molds the classic form to his heart's desire."

### First Stereo Recording

The following week Karl Ancherl will conduct the Czech Philharmonia in Shostakovich's "Symphony No. 5," Op. 47. This disk, incidentally, is the first performance of the symphony recorded in stereo behind the Iron Curtain. The composer offers this explanation of the program. "The theme of my Symphony is the stabilization of a personality. In the center of this composition—conceived lyrically from beginning to end—I saw a man with all his experiences. The finale resolves the tragically tense impulses of the earlier movement into optimism and the joy of living."

The Second Symphony of Beethoven and the "Spider Feast" by Roussel fill out the program for April 7.

Following Ed Johnson's "Concerttime" at 7 o'clock Saturday evenings over KFSB, radio listeners may tune to the New York Philharmonic broadcast at 8:30 carried over KODE.

### Broadcast Premiere

Samuel Barber's "Andromache's Farewell," for soprano and orchestra, will be given its premiere performance as Thomas Schippers assumes the podium on the Philharmonic broadcast Saturday, April 6.

Juco activity tickets are good for one more Community Concert performance, this one at Fayetteville. The Indianapolis Symphony will present a program at 8 o'clock, Thursday, March 28. This concert will be held in the University Men's Gym on the west end of the A.U. campus.

Looking for a moment in retrospect, one can only say "Bravo!" about the performance given at Joplin Junior College by the North Texas State University Choir March 7. Intonation was very good and the dynamics were superb, especially in the "Mass in G Minor" by Ralph Vaughn Williams. It was, indeed, a job well done.

## Barbara Stone, Alias Miss Kitty, Performs Various Duties on TV

Demonstrating the latest Captain Video ray gun or riding a new Cowboy Bob tricycle is all part of the job for Barbara Stone as Miss Kitty Clover on Junior Auction over KODE-TV.

On the Saturday morning program children bid for prizes by using coupon points from the sponsoring company's potato chip bags as a medium of exchange. Barbara explains: "Colonel Clover auctions the prizes and I assist by showing them."

The J.J.C. freshman secured the job after trying out at the studio along with several other girls also recommended by Milton Brietzke upon request of program managers. Displaying much enthusiasm for the work, she describes it as "so interesting and a marvelous opportunity for me."

Barbara does not plan to major in speech or dramatics but occupational therapy for which she has won a scholarship for later study. She expresses no thought of changing her major but says: "I enjoy speech and have almost a minor in it. I would like to do part-time television work after college."

She has had roles in "Good News" and high school productions. Last year she directed a play and her junior year she won the best actress award for portraying "an old lady" in "January Thaw." She is now working with the production staff of "Medea."

Besides holding membership in College Players, the busy blonde belongs to Phi Theta Kappa, C.C.U.N., Young Republicans' Club, and Y.W.C.A. She serves as secretary-treasurer of the

Freshman Class and is an alternate delegate to the M.M.U.N. She was also the Engineers' Club nominee to the Miss Juco Pageant and St. Pat's Day queen attendant.

Barbara says she plans to return to J.J.C. next year.

## With the Alumni

Jim Andrews, who graduates from Kansas State College this spring, will teach two sections of seventh and eighth grade mathematics and two classes for mentally retarded children in California.

Ronnie Camp portrayed the lead character in "Bye Bye Birdie," a student-directed musical which was presented March 14-16 at the University of Missouri. He was chosen from 375 men who tried out for the part.

Bonnie Cogbill is doing graduate work at Northwestern University.

Susan Elliot has signed a contract to teach at Neodesha High School in Kansas.

Margaret Johnson has been elected president of Kappa Mu Epsilon, honorary mathematics society at K.S.C. at Pittsburg.

Susan Stout serves as ballet director at San Diego State College.

Gwen Theis recently participated in a dance drama at the University of Arkansas, which was also televised on the Little Rock network. Duane Hunt handled lighting for the production.

Mrs. Jacqueline Wilder, a former Chart editor, recently visited The Chart office. She now lives in Carthage.

## Dr. John Baxter, NBC Teacher, Presents Lecture

Dr. John F. Baxter, known nationally on NBC's Continental Classroom from 1959-61, lectured on "The Hydration of Ions" March 13 to chemistry students. He heads the General Chemistry Division at the University of Florida at Gainesville.

The scientist explained that "All chemistry is concerned with one thing, the interaction among the chemical species." His discussion dealt with two main ideas—the energy involved in the interaction of ions within themselves and the energy involved in the interaction of ions with polar molecules.

To illustrate his address, the chemist showed a film about the mechanism of hydration of ionic substances.

Dr. Baxter was selected by the American Chemical Society to prepare and teach a complete high school chemistry on film. He is author of chemistry texts and laboratory manuals.

## Classes Choose 20 To Revise Constitution

The Sophomore and Freshman classes elected their class representatives February 19 for the Constitutional Convention.

The convention was called by a four-fifths majority vote of the student senators. The purpose of the convention is to revise the present Joplin Junior College Constitution, which they believe is outdated and inaccurate in many sections.

Sophomore delegates are Dick Ford, Sheila Gilbert, Nancy Koos, Sharon Long, and David Owen.

Freshman delegates are Karen Anderson, Marie Baysinger, Jim Burrell, Donald Coodey, Carol Freemeyer, Jerry Genisio, Cheryl Giett, Blanche Hamby, Janice Hammer, Bob Holden, Judy Lewis, Myron McKinney, Tom Smith, Joe Stever, and Larry Tomlin.

Senate President Carl Gilmore states that revision meetings are being planned and the Senate hopes to have the revised Constitution in effect by the end of the semester.

## Six to Present Play During Eastertide

The cast for an Easter production, "Christ in a Concrete City," by T. W. Turner, was chosen after tryouts February 27-28. The characters include: Man I, Ervin Triplett; Man II, Myron McKinney; Man III, Steve Garrison; Man IV, Steve Duncan; Woman I, Karen Faust; Woman II, Karalee Pearson.

Mrs. Nancy Triplett, director, said that the play will be presented for the Easter assembly, April 11, but that several performances will also be given for various churches and other organizations in the area.

The production crew consists of Kathy Walker, publicity; Steve Garrison, Ted Phillips, and Greg Brown, platform construction; Nadine Kirk, program continuity; Carole Riley, chairman of ushers; Steve Chenault and Nick Noble, lights; Mike McGee, set design.

## Kay Karnes Becomes St. Pat's Princess

Kay Karnes participated as a queen candidate in St. Pat's Day festivities at Rolla School of Mines. She represented the Independents. The annual celebration included a parade and ball. Queen candidates attended receptions and a luncheon in their honor and rode on the queen's float in the parade.

Kay, a sophomore at J.J.C., is majoring in medical technology.

## Pi Alpha Pi Initiates Eight New Members

Formal initiation of eight pledges into Pi Alpha Pi occurred last night in the Little Theater. Two members of the honorary business fraternity, Marilyn Blatter and Donna Hinkle, who were initiated informally last fall, were also in the ceremony.

Other new members include Carolyn Breeden, Sharon McClellan, Myron McKinney, Phoebe Pigg, Gary Scott, and Sharon Shepherd. An honorary membership was conferred upon Miss Penny Sickles of Penny's Secretarial Center.

Donna Hutchins, president, and Lucy Mosier, secretary-treasurer, conducted the ceremony. Mrs. Myrtle Babbitt, first president of the fraternity, and Miss Sickles each addressed the group.

Sharon McClellan and Sharon Shepherd played a flute duet, and Phoebe Pigg did a toe dance.

Clarence Cowan and Miss Vera Steininger sponsor the organization.

## Engineers Club Tours Two Area Industries

Eighteen College engineers went on a field trip March 1, visiting two local companies.

Club members toured the Spencer Chemical Corporation plant and ate lunch in the plant cafeteria. They then journeyed to Riverton, Kansas, where they toured the Empire District Electric Company plant.

## Senate Launches 'Cafeteria Week'

The first "Cafeteria Week" was held March 4-8. Sponsored by the Student Senate, the project is to improve the appearance of the cafeteria.

Although the observance has improved conditions, the Cafeteria Committee feels there is much more to be done and will continue to work on the project for the remainder of the semester. "Just a few are leaving a mess on the tables, mainly at the north end of the cafeteria," reports Lloyd Buehner III, chairman.

The committee has set a suggestion box in the cafeteria to obtain ideas for improvement. According to Buehner, approximately 25 suggestions have been received from the student body. Three ideas considered by the Senate follow:

"Allow students on probation only one hour in the cafeteria daily."

"On one wall of the cafeteria paint a mural depicting Joplin industries."

"Keep the library and cafeteria open during assemblies."

Buehner says that emphasis on cafeteria neatness will extend throughout the College year and that the Committee will appreciate the cooperation of all students.

He added that the suggestion box, which will be left in the cafeteria for the rest of the semester, may include any needed improvement in the College.

## Secretarial Class Visits Penny's Service

Members of the Secretarial Procedures Class toured Penny's Secretarial Center March 6 in relation to work of the course.

Penny Sickles, owner of the service, demonstrated the use of several machines: Sound Scriber (a dictaphone), Multilith (an offset printing mechanism), photocopy, and a laminating machine.

A former student of Joplin Junior College, Miss Sickles told the class of a plan of dictation by telephone which she originated for Mickey Mantle's Holiday Inn in Joplin. It is probably the first system of its kind in the United States, according to Miss Sickles.

Miss Vera Steininger, instructor, accompanied the group.

## Night Class Learns To Operate Computer

Persons with engineering and business interests are learning the basic concepts of operating and programming an electronic computer at the College. The General Precision Company of Kansas City has made available a Royal-McBee LGP-30 computer with a flex-o-writer input-output unit.

Tom Dunphy, Jr., instructor at Kansas State College in Pittsburg and former physics teacher at J.J.C., teaches the course. Classes, which began Monday night, March 11, will continue for four and one-half weeks. Approximately 70 persons enrolled for the course and attend the nine class sessions in Room 105.

The Joplin Chamber of Commerce sponsors the course, which is free to J.J.C. students and faculty but requires a fee of \$10 for other persons. No college credit is earned.

## Music Department Sets Next Recital for April 2

The monthly recital April 2 will feature instrumental selections played by four College students and two Joplin Senior High students.

Bob Holden will play "Concerto" by David on trombone. Piano soloists include: Bob Moskop, "Sonata Op. 2 No. 1" by Beethoven; Elayne Roby, "Invention" by J. S. Bach and "Humoresque" by Rachmaninoff; and Max Wilson, "Fantasia in C Minor" by Mozart.

Linda Hailey and Bill Snodgrass from the high school will perform violin selections.

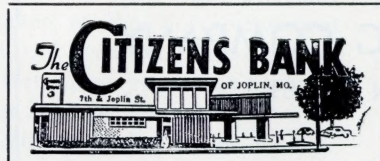

The public is invited to the recital and to the reception afterward in Room 210.

## NOMA Schedule

### Business Tests April 4

The Joplin chapter of National Office Management Association will sponsor the annual national business entrance examinations April 4 at the College. Administered by NOMA personnel, the tests cover several areas of commercial achievement.

The tests are open to both high school and College students. They consist of a business fundamentals and general information examination at no charge, a general office clerical test, a stenographic test, and typewriting test.

## U. N. Delegates Leave March 27 For St. Louis

Ten Joplin Junior College students will compose two delegations, representing Argentina, at the Second Midwest Model United Nations, March 27-30, in St. Louis.

Members planning to go are Millie Blankenship, Lloyd Buehner III, Carl Gilmore, Bob Howard, Dan Hoyt, Nancy Koos, Julia Miller, Barbara Stone, Richard Thompson, head delegate, and Jim Webster. Mrs. Mary Kirk Kelly, advisor, will accompany them.

The purpose of the Model U. N. is to give the representatives a wide base of understanding and interest in the "U. N. and international affairs." Mrs. Kelly says approximately 80 delegations, representing 65 schools, will attend the session.

Among the speakers will be Dr. Andrew Cordier who is Dean of the Graduate School of International Affairs at Columbia University and who was, until 1962, connected with the U. N. Secretariat; Joe Billings, Field representative for the Collegiate Campus U. N.; Jim Moody of the Peace Corps; and Trafford Maher, S. J., of Washington University.

Each delegate will work with one of the five main committees of the Model General Assembly and later all will work together during the convention of the entire Model General Assembly. The Joplin delegation will attend one meeting of the Security Council but will not take an active part since Argentina is not a member of the Security Council.

A banquet Saturday night will end the meeting.

## Six Present Vocal, Instrumental Recital

Five music students of Joplin Junior College and one of Joplin Senior High School presented an instrumental and vocal program March 12 in Room 210.

Piano soloists included: Arletta Frost, "Serenade" by Greig; Carole Smart, "Sonata in F Minor" by Scarlatti; and Bob Moskop, "Solfeggietto" by C. P. E. Bach.

Violin soloist Pam Hathaway from Joplin Senior played "Andante and Scherzo Capriccioso" by David. She was accompanied by Mrs. Mary Bingham Porter.

Max Wilson sang "O Del Mio Dolce Ardor" by Von Gluck and "Do You Remember?" by Levitzki; Bill Vance, "By a Lonely Forest Pathway" by Charles T. Griffes and "Preach Not Me Your Musty Rules" by Dr. Thomas Arne. Mrs. Oliver Sovereign accompanied them.

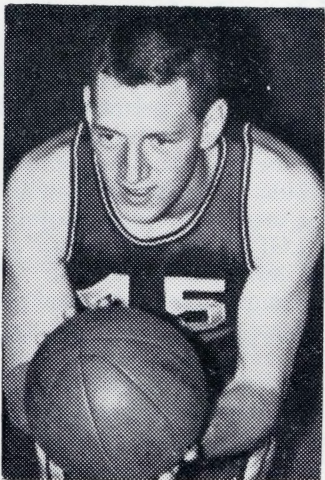

## YWCA to Sell Candy To Finance Projects

The YWCA will sell candy April 1-14 to raise funds to send delegates to the Estes Park Conference in June and for other projects. Miss Vera Steininger, advisor, suggests that the 50-cent chocolate bars will make excellent Easter gifts.

## Hammett and Bowman Win All-Conference Spots

Bruce

Kenneth Bowman, six-foot sophomore guard, and Bruce Hammett, six-four freshman forward, have been unanimously chosen for the Interstate Conference all-star basketball team by the coaches of the seven Interstate Conference teams. The all-star team was announced March 13 in Kansas City.

The Lions, who won 13 of 14 conference games during the season, were officially awarded conference championship during a recent meeting of coaches and league officials. Art Cortez and Gary Keeling received honorable mentions.

Bowman and Hammett ranked one-two, respectively, in scoring for the Lions this season.

Ken

## Group Visits K.U. Psychology Department

Seven Joplin Junior College students toured the University of Kansas campus February 21-22. The purpose of the trip was to see the school and the psychology department, according to members of the group.

Arriving on the campus Thursday afternoon, the boys checked into Olin Templin residence hall. Friday morning they met in the admissions office. The group then visited with the head of the psychology department, who discussed the school's graduate programs.

A student of the University guided the boys around the campus, ending the tour at lunchtime in the Student Union. During the afternoon several members visited the Art Museum and the Museum of Natural History before returning to Joplin Friday night.

Those going were Bill Bowman, Lloyd Granger, Gary Johnson, Larry McKee, David Owen, Jim Webster, and David Wheeler.

## Lions Master Griffons, 82-77, In Tourney; Moberly Raps JJC

With the combined efforts of Art Cortez and Gary Keeling, the Lions were able to defeat St. Joseph Junior College, 82-77, February 28, at Moberly in first round play of the Region 16 sub-regional junior college tournament.

Keeling, getting off to a slow start, hit nine fielders and one free throw for 19 points during the second half and netted a total of 23 points for game-scoring honors. Cortez scored 15 points and was key man for Joplin on defense. Keeling and Bruce Hammett were also effective on defense. Ken Bowman collected 14 tallies for his effort and Hammett added 13.

The Lions trailed until the final seven minutes when they evened the score at 59-59. Joplin lunged ahead with 16 points, but St. Joseph quickly narrowed the lead to 5 points. Joplin applied the pressure and the Griffon attack died out.

The Griffons took command with an early lead. Joplin battled back but couldn't even the score as St. Joseph went into half time leading 40-30.

Bob Ward and Bobby Bell were key men for the Griffons. Ward collected 21 points and Bell added 19 for the losers.

In second round play, Joplin was hit hard by the sharp shooting of Moberly Junior College as the Lions were eliminated from the tourney by the score of 87-71, Friday, March 1. Moberly was seeded first in the tournament.

Joplin took an early lead, but the fired-up favorites went to

town with a 17 point lead. The Lions were unable to catch them the rest of the game. Moberly took a 46-29 lead into intermission.

Joe Mimlitz led the victors with 26 points. He hit 12 field goals and 2 charities for his high. Bill Coburn aided his teammate with 19 points.

Bruce Hammett led the Lions with 20 points, good for second in over-all points scored. Ken Bowman and Gary Keeling donated 16 tallies each to the losing cause.

## Faculty Outlasts Circle K Club, 22-19

The faculty entertained the Circle K Club and the student body in a ludicrous basketball game March 5 in the gymnasium. Key men for the faculty were City Athletic Director Dick Humphrey, Coach Landrith, and the referee, Coach Stegge.

For the students, Tom Braeckel, Clay Webster, and Steve Chénault were top men.

As to the final score, which is not certain, the faculty seems to have come out ahead, 22-19, although it took a little football, wrestling, socker, and systematic cheating on the part of the official, to do the job. Anyway, the students didn't receive any black eyes.

It would be difficult for anyone to give an accurate rundown on the game, because no one knew exactly what was going on. Even the statistics are uncertain, due to several opinions on the outcome of the game and the individual totals.

It seems that the faculty has yet to be defeated.
